LIQUID IONIC MAGNESIUM & CALIMAG

Magnesium and Calcium intake contributes to various physiological functions in the body, including the maintenance of normal bones and teeth, normal muscle function, and the reduction of tiredness and fatigue. Our product utilizes a proprietary process that reduces the size of magnesium molecules. This low dose formulation is designed for sublingual administration and is suitable for most individuals seeking supplemental magnesium. When combined with sufficient vitamin D, a healthy diet, and regular exercise, may reduce the risk of developing osteoporosis.
